John J D Munn

Coach and consultant

TESTIMONIALS

"John is a **business mastermind**, everything happens for a reason and I am so fortunate to have met him. He cares about his **clients' success**, he thinks fast and he knows what he's talking about. I look forward to tons of future sessions with him!"

- Ray, USA, Owner of a Voiceover Business

"John is a **true expert** in his field and has given me so many ideas for my online course that I am actually now excited for its launch. **I now understand** what **value I can bring** rather than just be focused on the price which is what my prime focus was before our session together. I will be hiring John again as **my go-to for expert advice**."

- Anu, UK, Owner of a Language School

"John encouraged me to **overcome my fears** of starting a business. He is always there for me to offer invaluable guidance. He frequently introduces me to helpful contacts, forwards events that might benefit, and has advised on applications to business competitions. Without his **endless encouragement** and faith I would not have seized these opportunities that lay well beyond my comfort zone and which have led me to set up my own venture, well-equipped with funds and a **valuable business support network**."

- Charlotte, UK, Angel Investment Coach
